GroupName: LI LI

This is a city built on a hillside, with dramatic ups and downs. This is a city built on the bay, with fog all year round. Clouds and rain may come in a blink of an eye. When standing outside the city, the three-dimensional mountain city seems to make you feel you have a panoramic view of the whole city. But after walking in, you will suddenly realize that it turns out to be a maze that you can never control.

The ups and downs of the city are full of speed and passion, and it is like taking an adventure when you go through the town. You can never predict the next corner, and every intersection will be a brand new picture. It may be a sweeping open sea view or a nearly vertical three-dimensional street rising from the ground. Cars sometimes seem to be driving in the air, and bridges over the sea may also stand between buildings. The bold graffiti on the street walls speaks to the hippie and naughty side of the city.
